CAREER OBJECTIVE

Motivated Software Developer with hands-on experience in developing responsive and scalable web applications. Passionate about solving real-world problems and seeking a Software Developer role to contribute technical expertise while continuously learning and growing in a professional environment.

EDUCATION

Einstein College of Engineering, Tirunelveli
B.E. Computer Science and Engineering | **2023 – 2027**
CGPA: 8.32

Sokkalal Higher Secondary School, Mukkudal
HSC : 86% | Year of Passing: 2023
SSLC : Passed | Year of Passing: 2021

TECHNICAL SKILLS

- **Languages:** Java, JavaScript
- **Web:** HTML, CSS, Node.js, Express.js
- **Database:** MongoDB
- **Concepts:** REST APIs, WebSockets, Problem Solving, Web Scraping
- **Tools:** Git, GitHub, VS Code

EXPERIENCE

Full Stack Web Developer Intern- Softrate Technology, Chennai | June 2026

Project: IT Asset Management System

Technologies: HTML, CSS, JavaScript, Node.js, Express.js, MongoDB

- Implemented **Login Authentication** with separate **Admin and User dashboards**, including role-based access control.
- Built **Employee & Asset Management** modules with asset allocation and maintenance request features, enabling centralized admin management and user-side request handling.

PROJECTS

AI College Predictor – Predict Your Dream College with AI

Technologies: Python, FastAPI, LightGBM, React.js, Web Scraping

- Developed an **AI-based TNEA college predictor** using historical cutoff and rank data to recommend suitable colleges and branches.
- Implemented **web scraping and LightGBM** to analyze admission data and predict students' college admission chances.
- Built a **React.js frontend with FastAPI backend** for personalized college recommendations based on rank, cutoff, community, and branch.

Tamil Nadu Election Live Count Website (2026)

Technologies: HTML, CSS, JavaScript, Node.js, Express.js, MongoDB, WebSockets, Web Scraping

- Developed a **real-time Tamil Nadu election live counting website** with constituency-wise result visualization and dynamic updates.
 - Implemented **web scraping from official ECI sources** & built backend services using **Node.js & Express.js** for automated data handling.
 - Used **WebSockets** to deliver live vote-count updates instantly without page refresh, with a **responsive frontend UI**.
-

TN HSC(+2) Result & Cutoff Calculator Portal

Technologies: HTML, CSS, JavaScript, Node.js, Express.js, Web Scraping, Caching

- Developed a **student result portal** to fetch HSC (+2) results using **Register Number & Date of Birth**, with marks and pass/fail details.
 - Implemented **web scraping and caching** to retrieve results from the **official Tamil Nadu results website** and provide faster repeated access.
 - Built **automatic Engineering & Medical cutoff calculation** based on student group selection and displayed admission-related cutoff details.
-

College Bus Live Tracking System (Full Stack Application)

Technologies: HTML, CSS, JavaScript, Node.js, Express.js, MongoDB, WebSockets, GPS, Push

Notifications, Android WebView (Java)

- Built a **real-time college bus tracking system** using a **Java-based WebView Android application**, with role-based access for Drivers, Students/Staff, and Admins.
 - Implemented **live GPS tracking using WebSockets** for instant location updates without storing real-time coordinates in the database.
 - Used **MongoDB** for user authentication, bus routes, and user data, with **Android 13+ push notification permission handling**.
-

Recipe Search Application (Full Stack Application)

Technologies: HTML, CSS, JavaScript, Node.js, Express.js, MongoDB, WebView

- Developed a recipe search application with responsive UI
 - Built backend using Node.js and MongoDB for data management
 - Deployed the application inside a mobile app using WebView
-

PROBLEM SOLVING

- Solved 200+ programming problems using Java on Gredious Learning Platform
 - Practicing Data Structures and Algorithms regularly
 - Strong logical thinking and debugging skills
-
